# "Ten On A Guillotine"

The Yearbook staff wishes to take precious time and badly needed space to dedicate this page to those thoughtful students who were kind enough to have taken their pictures too late to make the regular section. It is not that the staff minds readjusting the ladder, which consumes valuable time. It is not that the staff minds having these little surprises pulled on them that we are dedicating this page to them. It is just that we have spent so much time preparing this book to represent the true spirit of the school that we did not have the heart to exclude these few traitorous souls. So with forced smile and deadly looks, the staff indignantly presents "The Guillotine Ten."

# The Board Of Trustees

Being sworn in, the Board of Trustees are, LEFT TO RIGHT, Mr. Stanley I. Dale, Dr. Thompson Potter, Mr. W. F. Enright, Jr., Mr. T. V. Teare, Mr. Loren Schneider, and Mr. John W. Newhart.

As it has been pointed out several times this year, Missouri Western is experiencing many firsts. One of these firsts is our own President, Dr. Blanton. He has labored many hours in the role of coordinator. For this, we are much indebted to him.

While Missouri Western has been making these first few strides, it has also been endowed with definite direction. This direction has been provided by Dean Gibbins through his patient counseling and subtle admonitions.

The final force in Missouri Western's first steps is the Board of Directors. Few students realize the tremendous obstacles and stumbling blocks over which the Board has helped Missouri Western. It is especially to these few that we owe our greatest debt. To build a strong four-year college and to administer to its unending wants is a demanding task. Missouri Western is fortunate to have men equal to this task.

## President Blanton And Dean Gibbins

Dr. Blanton always has a friendly smile for his many visitors.

Dean Gibbins takes care of many important matters each day.

## Science: Key To The Future

"Your shirts always  
come out whiter  
than mine."

"Hmm. This still still works good," says Vickie Turner.

Science majors at Missouri Western seem to work harder than any others. Time consuming, demanding courses are necessary to keep pace with the demands of modern science. The amount of knowledge that a science student must learn explodes to greater and greater dimensions every day. Science students have one consolation in their scholastic trials. With what they learn today, they can create even more knowledge to be learned by students of tomorrow.

Biology courses include Introduction to Biology, general botany, general zoology, three anatomy and physiology courses, health education for teachers, personal and community hygiene, conservation of natural resources, and general bacteriology.

Physics courses are introductory physics, two elementary physics courses, two general physics courses, and statistics.

Available chemistry courses are introductory chemistry, principles of chemistry, two general chemistry courses, qualitative analysis, quantitative analysis, and organic chemistry.

# English . . . Communication

Communication is one of the most important functions of man. All Missouri Western students must often find themselves in English courses. Through a more complete knowledge of English a student is better able to communicate with other people, and thus is better able to live with them.

English courses at Missouri Western include five composition courses, masterpieces of literature, English literature, two exposition courses, introduction to theater, two speech courses, oral interpretation, and children's literature.

Like all courses, English courses tend to pick up abbreviations. Although composition becomes comp. English literature becomes lit, and children's literature becomes kiddy lit, the importance of English cannot be abbreviated or underrated.

In an age of increasing anxieties, the study of music, art, and drama by the average student is indicative of its power to provide happiness. These means of self-expression are new experiences for many students; and while the students may never be as important and influential to art, music, and drama as Michelangelo, Bach, and Shakespeare, art, music and drama are important and influential to students. Students are provided with a newly developed sixth sense for understanding daily life. This is the interest of our faculty members in the Humanities division.

Drawing students practice drawing from life.

# Language—

## Barrier Or Bridge

Students intent upon learning French, listen as Mrs. Hoffman instructs them.

Language is a barrier between expanding populations in a shrinking world. Travel to foreign lands is no longer a novelty. American colleges and universities offer exchange programs with foreign universities. Foreign tourists are a growing industry with great potential in the United States. Familiarity with a foreign language is a bridge to better understanding between people. Besides, it's a required course.

Señor Eduardo Vargas and Madam Rosemary Hoffman help their Spanish and French students cross the language bridge. Two years of either French or Spanish will start language majors well on their way to fluency. These courses also make other students completely at home with any French or Spanish dialogue that may creep into a television show.

# Math: Basis Of Modern Technology

In a world of computers and automation much depends upon the mathematicians and statisticians. It is these individuals who are responsible for the theories behind programmed production machines in modern assembly lines and digital computers. Having shed its cloak of abstraction, math has made possible missile technology and automatic guidance systems. There are few fields which can stand aloft from mathematics. From traffic signals to the automatic regulatory systems in our satellites, math has become the foundation for much of our advancements in technology.

To keep this foundation firm, Mr. Britton, Mr. Wilkerson, and Miss Watkins give the students an extensive coverage of all theories of mathematics and statistics. It is through these theories that students have been made aware of the importance and application and foundation of modern technology.

## Social Sciences: Man's Study Of Man

Man cannot progress unless he takes time out to look back and examine what he has or has not accomplished. This is the purpose of the social sciences--man's study of man. No one nation is so great that it cannot learn from its accomplishments as well as its mistakes. History and Western civilization and Social Science take us over the periods of growth and decline in man's struggle to survive. Political science under Mr. Popplewell guides us through the intricate formations and structures of man's government. Finally we are introduced to the basis of society itself, the family, as sociology courses under Miss Harvey and Mr. Jordan review the family structure of man.

With the recent evolution of psychology from a philosophy to a science, psychology has come to play an ever increasing role in education and mental health.

Keeping in step with this transition, Missouri Western's psychology department provides up-to-date courses in general, educational applied, and personal adjustment psychology.

Psychology classes use many special terms and definitions.

# Technological Courses . . .

GLENN E. MARION  
B.S. Northwest Missouri State  
College. M.S. Oregon State  
College.

Modern technology's importance is ever increasing due to the growing influence of communication. Realizing this, Missouri Western has expanded its curriculum to provide an adequate foundation in electronics. Not only in electronics, but also in trade and vocational education, special arrangements have been made with the St. Joseph Technical School for Junior College students to enroll in certain courses leading to training as a skilled craftsman.

Economics is most essential to business majors.

# Business . . . Lifeblood Of A Nation

HERBERT G. HULLINGER  
B.S. Northwest Missouri State  
College. M.S. University of  
Missouri.

Free enterprise is a way of life in this country. This principle is furthered every day at Missouri Western through the teachings of our modern business courses. It may well be that some of tomorrow's leaders in business are attending to-day's classes at Missouri Western.

Drafting demands patience and accuracy.

Mrs. Dorothy Graham is always friendly and ready to help students---in this case, Bill Carter. Drop in and say "Hi" sometime.

## Counselors

Mr. Gerald Dallam is shown chatting with Mr. Schnellman. This is Mr. Dallam's first year and with the enlarged student enrollment his services are greatly appreciated.

Our library is the only place in school where students can study free from distractions. Books of all kinds are conveniently located to furnish additional information for class notes and research papers.

## Library

Miss Dena Clark is retiring after this year. We will miss her willing help and orderliness.

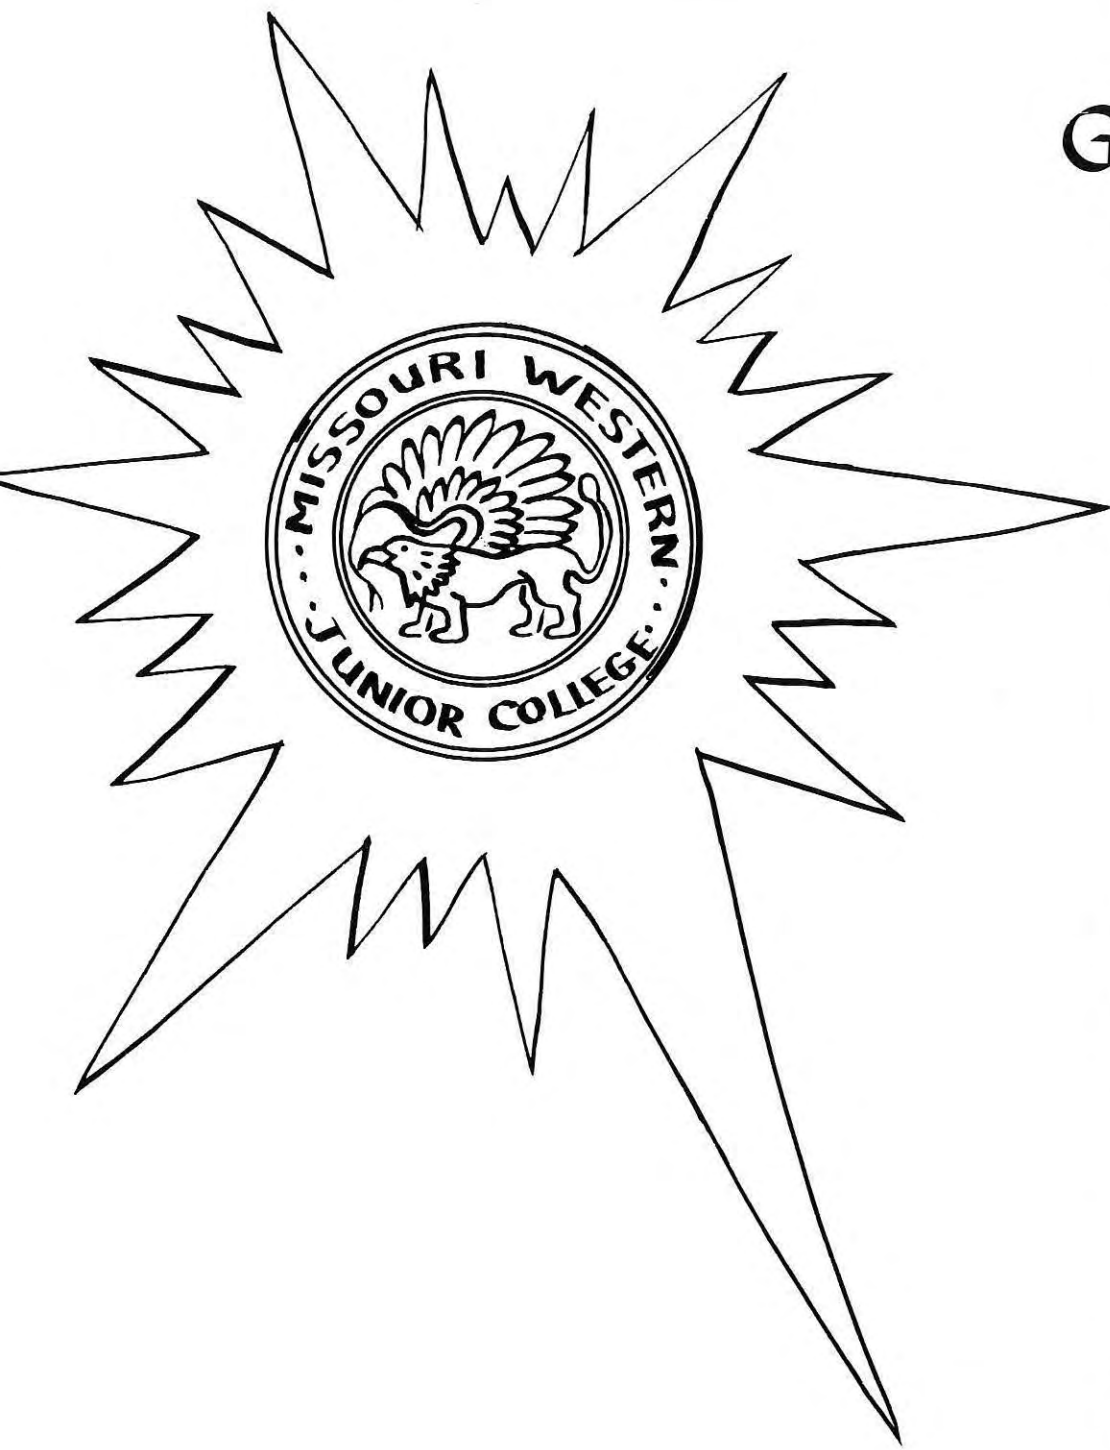

## Office Help

Dr. Blanton's secretary, Mrs. Lorraine Hansen talks with Mrs. Ruth Wallerstedt.

Mrs. Arline Fruin helps Miss Lacy look for a student card, while Mrs. Kerry Clampitt does some filing.

## Attendants

Approximately three weeks before the coronation, these and about twenty-five other girls were nominated for Homecoming Queen and Maid of Honor by the boys of the Senate and basketball team. The requirement for candidacy was the sale of at least one hundred dollars worth of basketball tickets. Seven candidates were voted upon by the student body and these four are this year's royalty.

FIRST ATTENDANT: Sally Hunter.

MAID OF HONOR: Janet Everett.

SECOND ATTENDANT: Jeannie Weir.

Roger McIntosh goes up for a rebound.

## Basketball

This year's season began with seventeen members of the team. Eight of those were six feet tall or over, thus giving Missouri Western a height advantage for the first time in years. In spite of knee and foot injuries to two players the Griffons began the season quite well. However, with the loss of two high scorers, the team's luck seemed to change. But their spirit never died and we thank them all for that. They were a real team.

Our ball, and away they go.

Rebounding is a crowded field of endeavor.

Up, an elbow, and in for two.

Flawless form merits two points for Griffes.

# Student Body Officers And Cabinet

The Student Body Officers are (FRONT ROW, left to right) Susie Summers, treasurer; Ron Shady, president; Dan Powell, vice-president; and Susan Krull, secretary. In the BACK ROW (left to right) are Miss Phelan, Senate sponsor; Kent Dannen, Billie Pumphrey, and Tom Turner, cabinet members.

The bleary-eyed, frazzled-looking students who stumble into the Grotto at 7 a.m. each Wednesday comprise Missouri Western's student government.

Senate members are elected by the students each semester. In addition to the elected members, the four elected officers and three appointed cabinet members comprise the Senate.

Besides being willing to attend early morning meetings, Senate members must be students in good standing and willing to devote themselves to service of their school. Devotion is absolutely necessary if 28 people are to carry out

the many Senate activities.

The big activities include three dances, homecoming events, and the book exchange. But it is the little activities that consume most of the Senate's time. Selling at the "Book Rack," decorating Christmas trees, putting up posters, replacing flags --the list could go on and on. But the most important Senate function is to act on the suggestions of the students they represent. This year's Senate faced a great many of these suggestions in the busy first year of Missouri Western.

Sophomore Senate members for the fall semester are (FRONT ROW, left to right) Barbara Heath, Connie Smith, Julia Gibbins, Vickie Kerr, and Melladee Kent; BACK ROW, left to right) Terry Showalter, Jacqueline Clark, Nate Bernard, and Cathy Evans. NOT SHOWN: Dorothy Boyer, Lloyd Nichols.

## Student Senate

Freshman Senate members for the fall semester are (FRONT ROW, left to right) Ginger Vetter, Connie Walker, Jayne Johnson, and Melanie Lott; (BACK ROW, left to right) Rex Agler, Bob Urquhart, and Dave Lewis. NOT SHOWN: Jim Anderson and Janie Burri.

Mace member Billie Pumphrey, who was chosen last spring, pins the official Mace pin on newly chosen Kent Dannen.

## Mace

Melladee Kent is pleasantly surprised as previously chosen Susie Summers officially appoints her as a new member.

Vickie Kerr and Susie Summers are both all smiles as Vickie receives her pin.

At RIGHT, Billie welcomes Ron Shady into the Mace.

Members of Phi Theta Kappa are (SEATED, left to right) Alison Felt, Joanna Fowler, Joyce Nolan, Vickie Kerr, Melladee Kent, (STANDING, left to right) Patty Smith, Richard Cox, Kent Dannen, Martiena Rosmolen, and Gloria Borkowski.

## Phi Theta Kappa

The purpose of the Phi Theta Kappa Fraternity is to encourage high scholastic standards. It is the national scholastic honor organization of the school which corresponds to Phi Beta Kappa in senior colleges. To become a member a student must make a "B+" or better average in at least 13 hours of college work for one semester. Then he may be pledged and must keep this average for an additional nine weeks, whereupon he is initiated. Not more than ten per cent of the entire student body may be chosen.

The staff sometimes discusses a copy block before it is used.

The editor explains the procedure to be used in the drawing of a certain page.  
Staff members work hard and diligently all year long.

The yearbook staff is a voting body at the beginning of the year when the general order and plans of the book are made. After that, the members work on individual assignments until the book is completed. All the members are volunteers, but all were screened carefully for their previous experience and present desire to contribute.

Kent Dannen tells the staff about his newest column.

Reviewing past issues helps the staff to improve succeeding issues.

## Griffon News Staff

"Griffon News staff please see your assignments on the bulletin board." When these words appear on the daily bulletin, another issue of the "Griffon News" is on the way.

Serving for her second year as editor Billie Pumphrey ran a paper that grew in size and scope to meet the needs of the new Missouri Western organization. Not only were there more activities to be reported in the larger school, but also a more diversified circulation to consider.

To satisfy the varying needs of an expanded enrollment new columns and features were added to the "Griffon News." Picture coverage was also increased. Naturally, a larger staff was necessary to get the paper to the presses.

Expansion was the keynote of "Griffon News", and diversification was the challenge successfully met by the editor and staff.

While staff members review latest issue, Billie outlines the forthcoming assignments for Ron.

Jackie Clark, Bob Wakeman, Miss Louise Lacy, Kent Dannen, Mr. Conrad Bensyl, Susan Krull, John Hoffman, Sylvia Wilson, Charmayne McGee, Connie Smith; NOT SHOWN, Linda Hurst.

## Delta Psi Omega

Delta Psi Omega, the national dramatics fraternity, promotes interest in theater by presenting several plays throughout the year. Pledges earn points to become eligible for membership.

President John Hoffman administers the oath of membership to the initiates.

LEFT: Initiates receive membership pins.

BELOW: Cake and punch climax the ceremony.

ABOVE: Active members congratulate the initiates.

ABOVE, Glenn Gibson catches the group with his camera after a meeting.

## Young Americans For Freedom

BELOW; Members look over some of the new literature of the national organization.

Y. A. F. members: (left to right) Connie Smith, secretary; Carl Wellenkoetter, membership chairman; Linda Haislip, Billie Pumphrey, John Roesle, treasurer; Tom Taylor, Glenn Gibson, Kent Dannen, chairman; and Bob Gondring, vice-chairman. NOT SHOWN: Lucia Franklin, Jim Holmes, Connie Walker, Janet Schroeder, Sherell Sydow, Bob Crawford, Ronald Weir, Lovell Nester, Bob Pitts, and Susan Krull.

One of the new organizations formed in the first year of the new college is the Missouri Western chapter of Young Americans for Freedom. Y.A.F. is a bipartisan political action group for young conservatives.

Part of the state and national organization, Y.A.F. engaged in many activities to further conservative ideals at Missouri Western. Films, literature, speakers, and floats are some of Y.A.F.'s projects. But the most important of the new chapter's tasks is to host the 1966 Missouri Y.A.F. state convention.

# Missouri Western Choir

The Missouri Western Choir, under the direction of Mrs. Roberta Riemer, serves as the school's main musical group. Besides performing for numerous school functions, the choir is occasionally called upon to sing for groups outside the college.

Versatility is evident in the choir's repertoire, which ranges from Handel to Negro spirituals. Versatility is also evident in the members of the choir which can break down into smaller ensembles when needed.

People who like to sing together enjoy their harmonious relationships in the Missouri Western Choir.

Mrs. Riemer prepares the choir for another convocation presentation.

BELOW, Mrs. Riemer skillfully brings out the best in the choir.

ABOVE, the choir sings "Silent Night" as the audience joins them in the Christmas convocation.

## The M.W.J.C. Student Union Board

One of the least known of the Missouri Western's student organizations is the Student Union Board. Few if any students realize or appreciate the importance of its functions. Few if any students can tell you what those functions are.

The Board has set up the regulations which make the Grotto habitable at all times. It is the Board who is responsible for the new addition of a juke box for student use and enjoyment. The Board functions as a judiciary body with the general student welfare in mind. To be a member of the Student Union Board is an honor and a responsibility.

Members of the Student Union Board are (left to right) Leechia Washington, John Johnson, Diane Didlo, Terry Showalter, chairman; and Mrs. Dorothy Graham and Mr. John Redmond, sponsors.

FRONT ROW, left to right: Linda Hurst, Allison Felt, Cynthia With, and Joanna Fowler. BACK ROW: Jim McCrary, Diana McCullough, Rev. James Maram, Bob Edler, Jerry Love, Jerry Geyer, and Dr. Ernest White.

## Student Baptist Union

## Engineers Club

FRONT ROW, left to right: Darryl Hawley, Richard Magner, Jim Fuller, Gary Orhle, Rod Sheridan, Ron Shady, and Mr. Marion. SECOND ROW: Bob Fleckal, Dave Bryant, Dana Korneman, George Johnson, Gary Mann, and Dave Wisherd. BACK ROW: Glenn Swartz, Dan Kolega, John Gouge, Bill Arthur, Mike Farley, and Dave Lewis.

Patty Smith needs to stand on a chair to get the attention of the group.

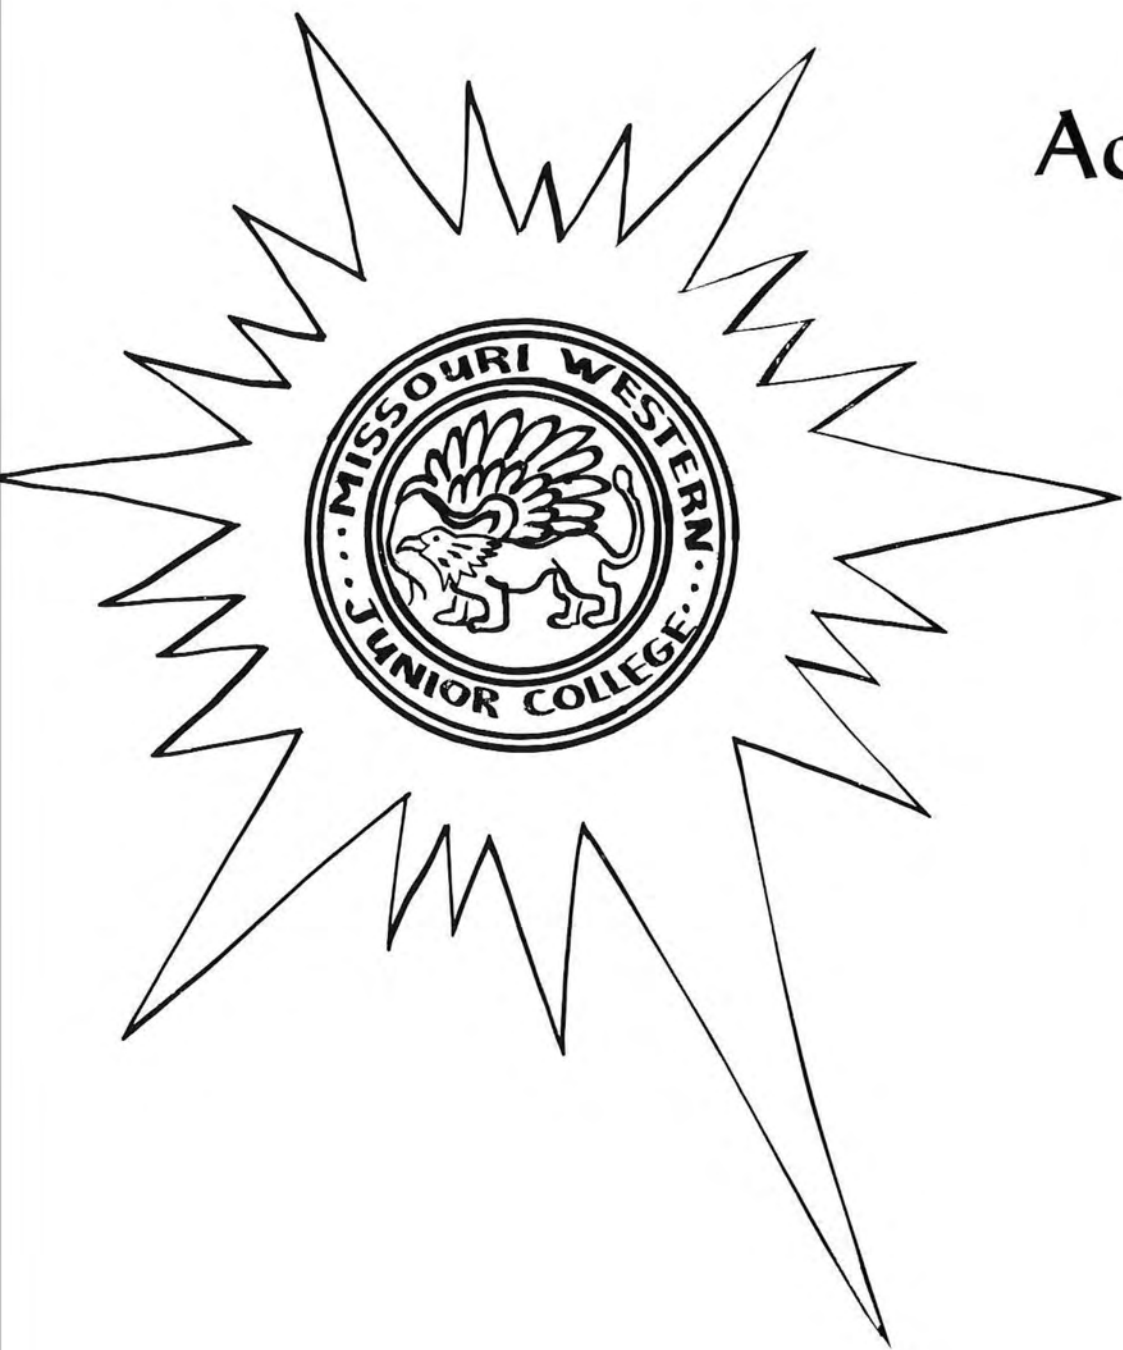

## Interlingua Club

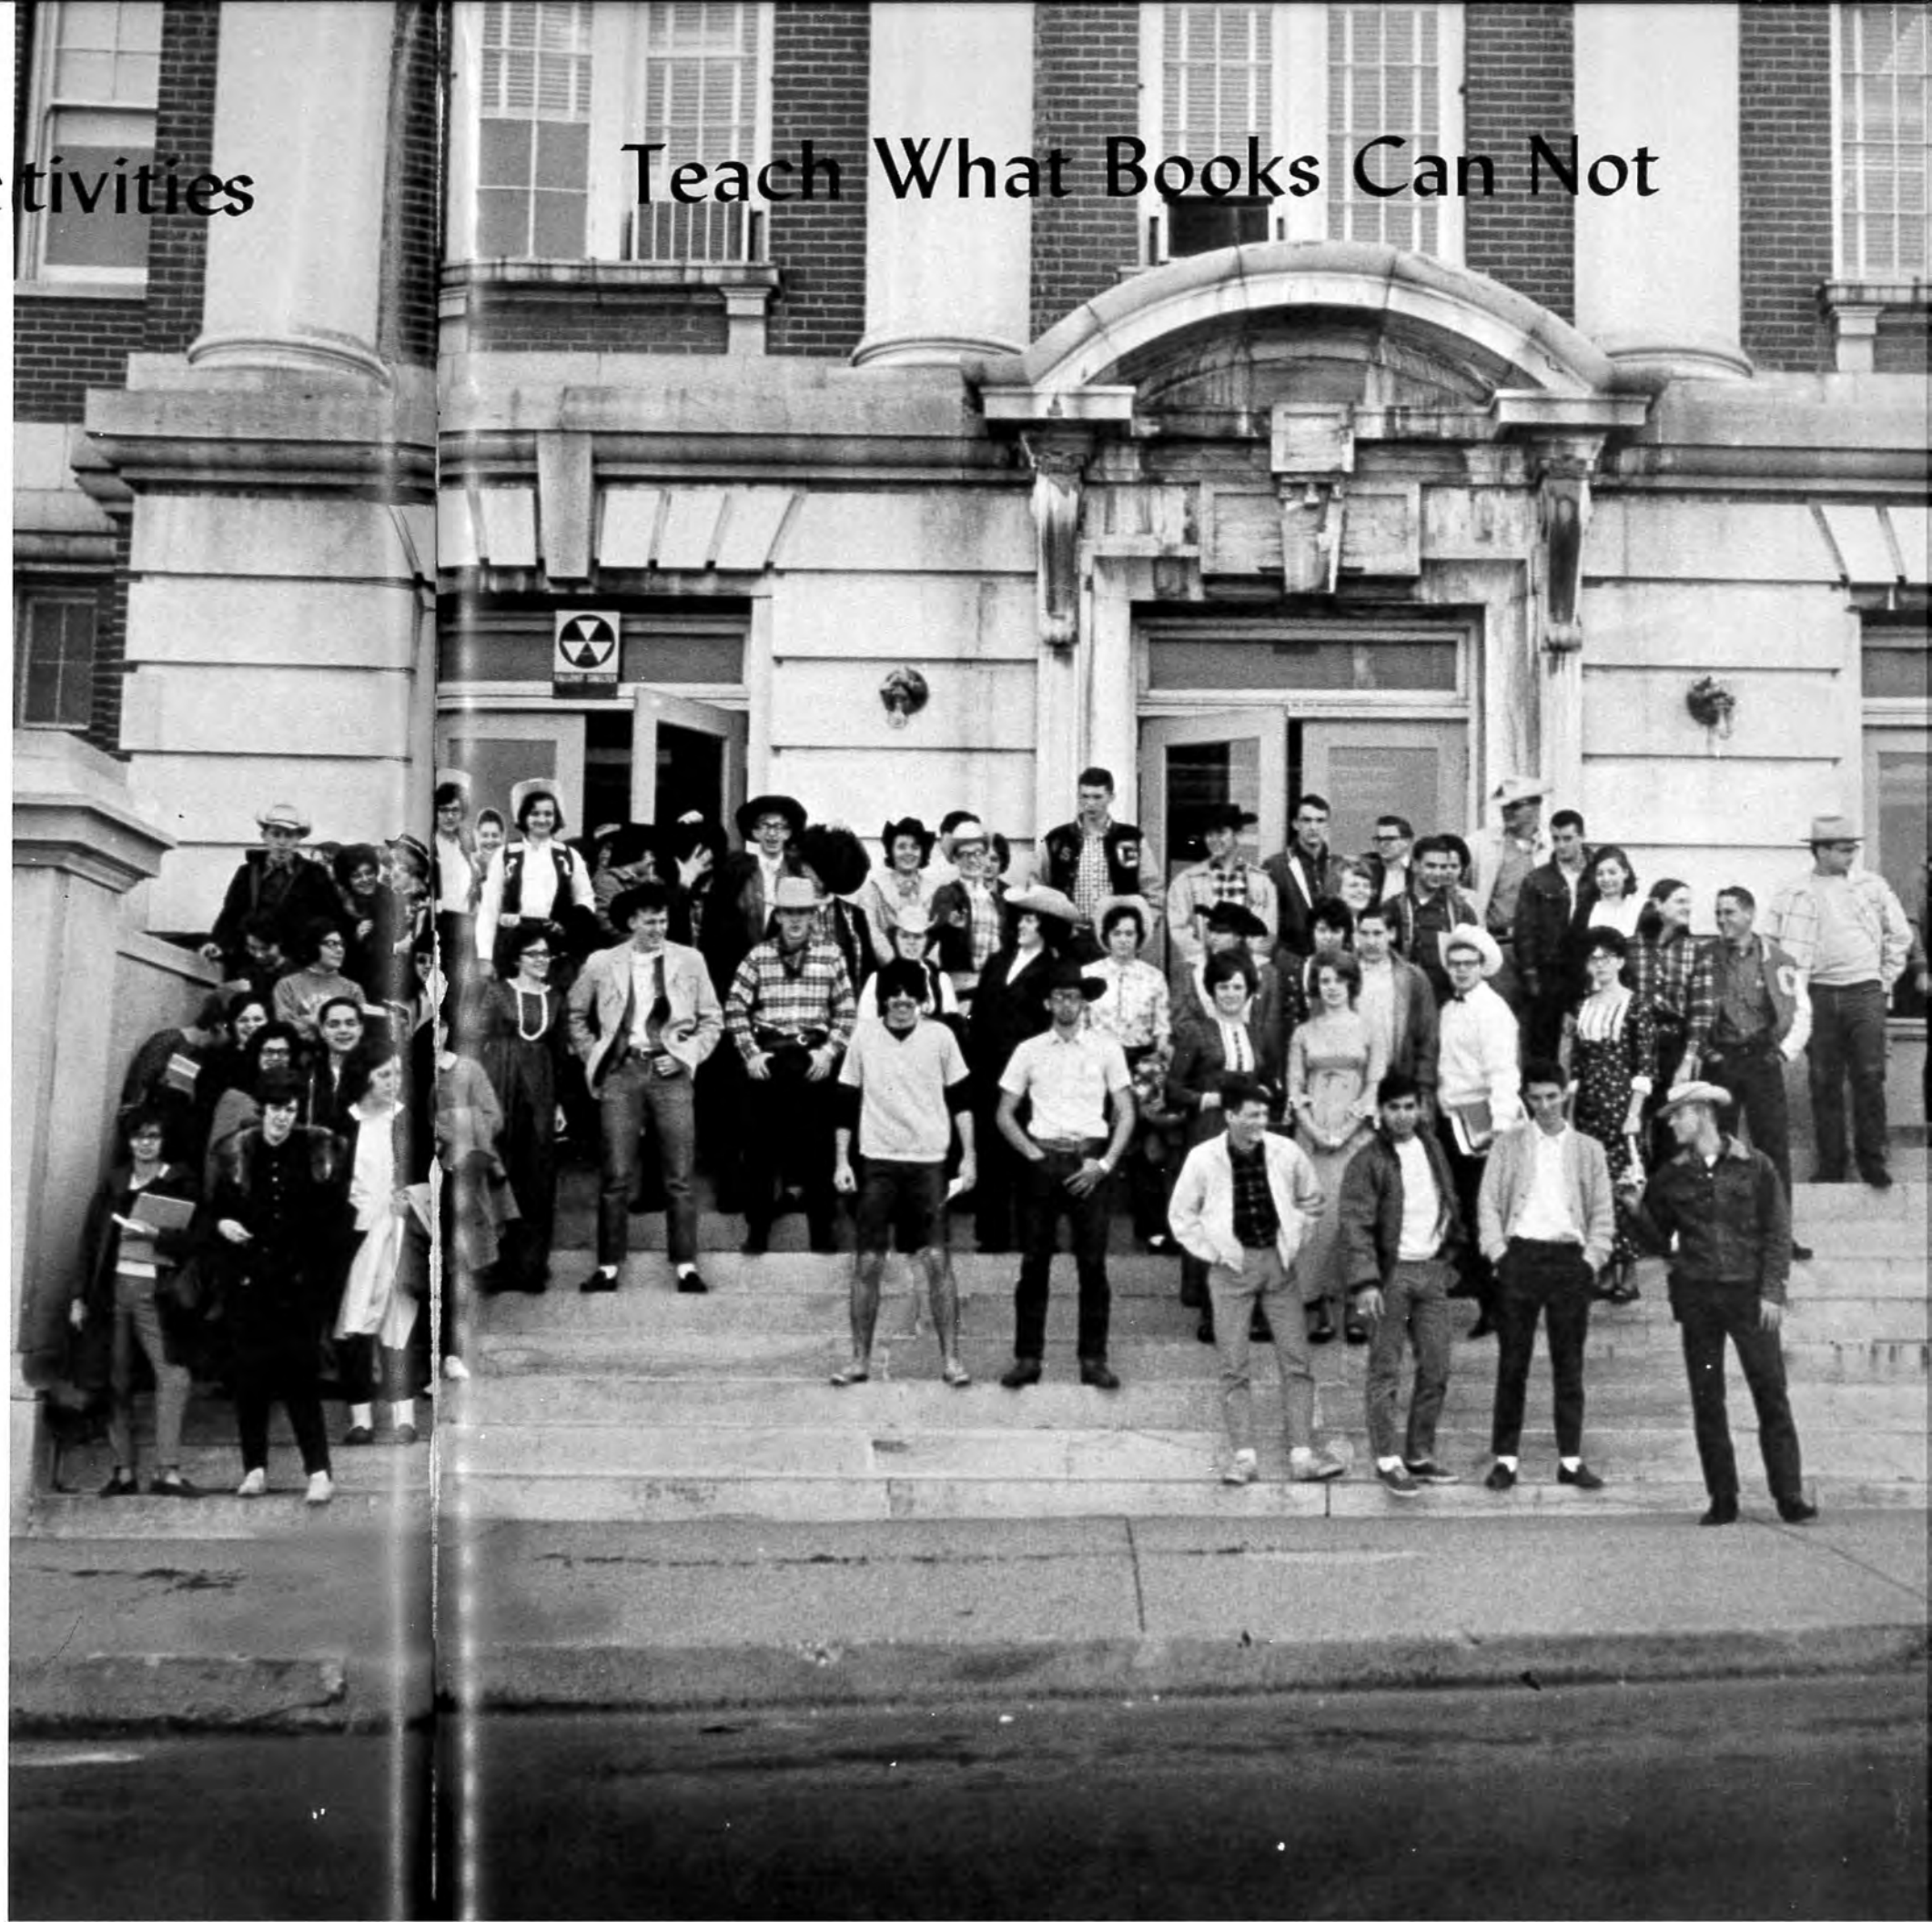

Members are, LEFT TO RIGHT: Mr. Vargas, sponsor; Connie Sims, Bill Curd, Patty Smith, Judi Boyer, Joyce Nolan, president; Helen Halter, Martiena Rosmolen, Cheryl Harmon, Quinta Johnson, and Kent Dannen.

The meetings are always enjoyed best when followed by refreshments and good conversation.

Activities

Teach What Books Can Not

# Registration

Remember that lost feeling and that confused feeling you had on registration day? If you were a freshman, you were probably amazed at how many students you saw. And you had good reason to be. There are nearly one thousand students enrolled this year.

This was the first year that we had a "Clubs' Fair" to let new students find out what each club or organization has to offer them.

Judy Moberly brings a book to the Senate Book Exchange and Susie Summers hands her a receipt.

Those who like to dance especially enjoyed themselves.

# Icebreaker Dance

Quit looking at the camera and try to catch him before he falls.

# Candid Page

Mr. Bensyl, is that really salad dressing?

Aw, go ahead! Take a sandwich.

The Senate book rack always has good reading as well as stationery, sweat shirts and pennants.

What class is the bleach for, home ec. and laundry I?

LEFT, the language club has a successful bake sale.

The Christmas spirit was generous in the whole student body.

Ron Shady presents the candidates to the student body.

## Introduction Of Candidates

The seven candidates (left to right) and the names of their managers are: Susie Summers, Bill Marchel; Connie Smith, Kent Dannen; Susan Krull, Jim Anderson; Vickie Kerr, Rex Agler; Sally Hunter, Roger McIntosh; Jeannie Weir, Don Woods; Janet Everett, Glenn Gibson.

A panel of judges decide which girl has the best western costume.

## Pep Rally

Excitement and enthusiasm ran high and many students really did dress western.

The "Victory Yell."

Ron Shady presents trophies to John Johnson for the best beard and to Virginia Payne for the best western costume.

## Coronation

Student Body President Ron Shady crowns Miss Susan Summers as Missouri Western's first Homecoming Queen.

Queen Susie begins her march across the basketball court escorted by members of the team.

The Homecoming game is officially begun as Queen Susie throws the basketball out onto the court.

The Queen, her court, and two of the candidates, Connie Smith (far left) and Susan Krull (far right). NOT SHOWN: candidate Vickie Kerr.

Queen Susie thanked the whole student body for electing her to have the honor of Homecoming Queen.

The Benton High School band sets the pace.

President and Mrs. Blanton lead the parade.

# Homecoming Parade

The Homecoming theme, Missouri Western "Western", brought forth many ingenious and well made floats. Twenty-seven entries made this year's parade the biggest and best one yet. Horns honked and enthusiasm reached a peak as the parade wound around the downtown area. Spectators who followed the parade had almost as much fun as we did.

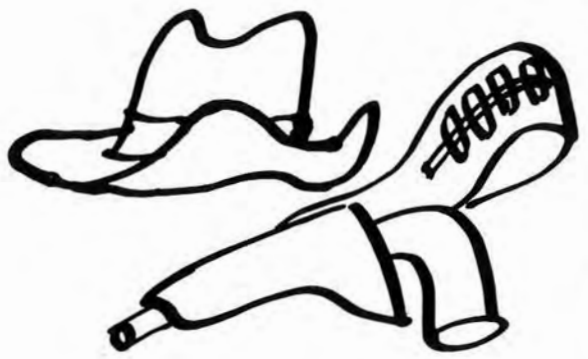

The Business Club really did a great job on "The Last Roundup".

Language Club members are protected from the Indians by the mighty Griffon.

Dave Lewis thinks his own Lynchin' is funny. (Maybe that's because he isn't really a Blue Devil.)

The Sigma Tau Delta Indians seem to have found their victim.

Queen Susie and her Court ride gracefully atop the Senate float.

Y. A. F. members really make their point on this float.

Winded riders of the Sigma Mu Sigma fraternity just made it from Kansas City in time for the parade.

Members of the yearbook staff ride proudly in our Homecoming Parade.

The cowboys (members) of the Sigma Tau Delta fraternity force their captive Indians (pledges) to play horsey.

## Homecoming Parade

The Student Union Board looks cold but happy.

The Baptist Student Union stages an ambush.

The Bliss Junior High School band is in good form.

The Delta Psi Omega members have the best protection from the Indians-- a solid cardboard fort.

## Homecoming Dance

Conversation was lively, as shown by John Hoffman's "expression."

We all danced like mad all evening.

Rex Agler, representing the basketball team, presents Queen Susie with a basketball by which she can remember the coronation.

Are they all really that mad at you, John Walters?

But the last dance was everyone's favorite.

"The Traveling Man" helps the child build a garden.

LEFT, the traveling man teaches the child a new song.

RIGHT, the child realizes that the man was the same wonderful traveling man that the mother had said would someday return.

# M.W.J.C. Students . . .

Ambush is one of the finer points of western valor.

Granny dresses do quite nicely for western costume.

The infamous Sig Tau boys are at it again.

Don't you think Joe Bliley's bandaid goatee is the most original?

# Caught In The Act

"Look out, it's coming after both of us!"

Queen Susie and part of her court smile proudly for the photographer.

What do you call that dance, Jeannie--the "Down, Boy, Down"?

The school library is a quiet place for study or sleep.

## Life In M.W.J.C.

Choosing one of the latest hit-records on the juke box sometimes requires a little time and outside help.

Mrs. Gorman helps students at the ever popular snack bar.

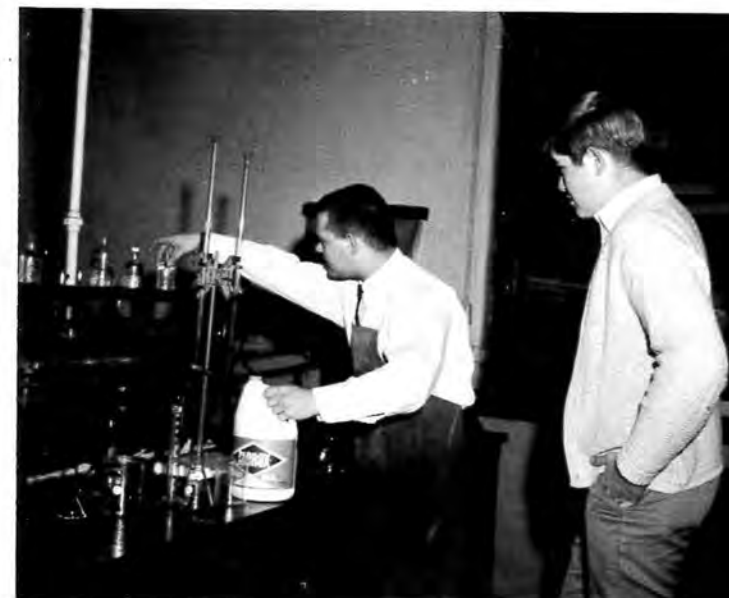

Have any trouble pushing stationery at the book rack?

## Halls And Grotto

Even between classes the halls are beehives of study and activity.

"What did the label on that bottle say?" "Nitro-glycerin!  
You fool!"

Mrs. Radke is our own favorite "little ole sandwich-maker."

Only those who are desperate study in the Grotto.
